What Does Hado Mean?

Hado is the name of my boat. Hado literally means "wave" and "move", the nature of water. Hado: The intrinsic vibrational pattern at the atomic level in all matter. The smallest unit of energy. Its basis is the energy of human consciousness....

Naming my boat Hado brings up dialog and a consciousness to consider....whether you believe or not, if we all practiced love, forgiveness and gratitude, imagine what living in that world would be like?

Not easy, but hugely transformational for you and those around you!

Women Posing As Sailors

Many women went to sea to find adventure, to support themselves financially, or to be near a sweetheart or husband. How were they able to disguise themselves for extended periods of time? Most women posed as young boys, for during the seventeenth and eighteenth centuries, many sailors began their careers at sea by the age of eleven. Of course the women had to perform the same daily routines as the men to avoid detection.
